| Box I      | Observations where certain claims were found unsearchable (Continuation of Item 1 of first sheet)  |
|------------|--|
| This Inter | national Search Report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:   |
|            | Claims Nos.:<br>because they relate to subject matter not required to be searched by this Authority, namely:   |
| ] -: L     | Claims Nos.:<br>because they relate to parts of the International Application that do not comply with the prescribed requirements to such<br>an extent that no meaningful International Search can be carried out, specifically: |
|            | Claims Nos.:<br>because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).  |
| Box II     | Observations where unity of invention is lacking (Continuation of item 2 of first sheet)   |
| This Inter | national Searching Authority found multiple inventions in this international application, as follows:  |
|            | see additional sheet   |
|            | As all required additional search fees were timely paid by the applicant, this International Search Report covers all searchable claims.   |
| 2. X       | As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.   |
| з. 🔲       | As only some of the required additional search fees were timely paid by the applicant, this international Search Report covers only those claims for which fees were paid, specifically claims Nos.:                             |
| 4.         | No required additional search fees were timely paid by the applicant. Consequently, this international Search Report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:                 |
| Remark (   | The additional search fees were accompanied by the applicant's protest.  No protest accompanied the payment of additional search fees.   |

## FURTHER INFORMATION CONTINUED FROM PCT/ISA/ 210

This International Searching Authority found multiple (groups of) inventions in this international application, as follows:

1. Claims: 1-17

Device for producing a heated emulsion of a drink comprising valve means provided between the mixing chamber and the delivery hole capable of rotating between an open position and a closed position

2. Claims: 18-20

Device for producing a heated emulsion of a drink comprising an annular element mounted around a cylindrical projection in which the air inlet is obtained, said annular element being provided with a radial hole, said annular element being capable of rotating between an open position of the air inlet and a closed position of the air inlet.
